- CGPA: Graduated with a stellar CGPA of 3.85, ranking among the top performers in my batch.
- IELTS: Achieved an overall Band 6.5
- Meta Hacker Cup 2025: Competed in Meta's global programming challenge, organized by Facebook, among thousands of international participants
- Harvard CS50X Puzzle Day Winner: Solved puzzles using logic and computational challenges in a global collaborative competition.
- Stanford Code In Place: Taught Python programming globally through Stanford University's Code in Place program based on the CS106A curriculum.

EDUCATION

Arid Agriculture University, Rawalpindi(Link) Rawalpindi, Pakistan
Bachelor of Human Nutrition & Dietetics Nov 2021-Aug 2025
CGPA: 3.85/4.00
Relevant Coursework: Public Health Nutrition, Research Methods in Nutrition, Dietetics, Statistics

SKILLS

Nutritional Assessment:	BMI, MUAC, BIA, Dietary Assessment, Anthropometric Evaluation
Clinical Nutrition:	SGA, MNA, MUST, MNT, NCP
Meal Planning & Dietetics:	DRIs, RDAs, Therapeutic Diet Planning, Nutrition Counseling
Research & Statistics:	Clinical Research, Data Collection, Data Interpretation
Programming & Computational Skills:	Python, Data Analysis, Statistical Analysis
Professional Skills:	Global Team Coordination, Communication, Project Management

PROJECT

Senior Year Project(GitHub) March 2025

- Assessed patient behaviors, symptoms, and responses to identify trends related to common conditions such as COPD, hypochondriasis, diabetes, hypertension, etc.
- Presented a presentation on hypochondriasis to a university panel, demonstrating research and presentation skills in SYP
- Impact: Led a structured one-week observation of a hypochondriac patient, assessing diet, lifestyle, and behavioral triggers, and implemented a targeted nutrition and counselling plan, resulting in a positive patient response

Health Hackathons Projects

Renal AI Wellness Hackathon (Link) Dec, 2025
Used: AI-Assisted Meal Planning, Renal Nutrition Guidelines, NCP, Nutrient Analysis
Designed an AI-assisted 3-day renal diet plan for kidney disease management.
Applied MNT and renal nutrition guidelines to develop evidence-based meal plans.

Alzheimer's Biomarker ML Project (GitHub) May, 2026
Used: XGBoost, SHAP Analysis, ADNI Dataset, Python, Clinical Biomarkers
Developed an ML model reducing 351 clinical biomarkers to 20 key features for Alzheimer's disease staging.
Identified FDG PET + Hippocampal volume as the strongest Alzheimer's predictors using SHAP analysis.

International Hackathons

AI Genesis Hackathon by Lablab.ai Nov, 2025
Used: Generative AI, Prompt Engineering, AI Product Development, Agile Project Management, Solution Design

- Led a multidisciplinary team as Project Manager and developed Python-based components for data processing and AI workflow integration.
- Applied prompt engineering techniques to optimize AI responses and support solution development.

QubicAgent: Real-Time Blockchain Intelligence & Agentic AI Nov, 2025

Used: Agentic AI, Blockchain Analytics, Prompt Engineering, EasyConnect, API Integration

- Developed Python-based workflows for processing real-time blockchain data and analytics.
- Applied Agentic AI to analyze on-chain activity, detect whale movements, and generate automated insights.

Clinical Experience

Awarded for Outstanding Contribution to Patient Health and Wellness as a nutritionist. April, 2025
(Certificate)

Assessment: Counseling, Dietary Planning, and Wellness Guidance

• Provided nutrition counseling and personalized diet planning for diverse and underserved patient populations.

• Managed dietary interventions for patients with diabetes, hypertension, obesity, renal disorders, and psychological health concerns**.**

TEACHING/VOLUNTEER EXPERIENCE

- IELTS Trainer: Trained 200+ underprivileged students through daily mock speaking practice, personalized reading notes, focused writing vocabulary support, regular listening tests, and real-time feedback. (Recording)
- Debate Representative: Secured 2nd position at the state level in debate competitions, delivering speeches on academic and social issues. (Certificate)
- Seminar Organizer: Organized and hosted a university seminar on Nutrition by coordinating with faculty and students. (Certificate)
- Python Trainer: Instructed 200+ underprivileged students in Python from beginner level, strengthening coding foundations and logical reasoning at iCodeGuru (Non-profit organisation, California)

WORKSHOPS/WEBINARS @iCodeGuru (Non-profit organisation, California)

- Delivered an online webinar on “Agentic AI Trainer”, trained 100+ underprivileged students (see here)
- Delivered an online webinar on “Creating video CVs, enhancing communication, and digital skills. (see here)
- Delivered an online workshop on “Nutrition Applications in Biomedical Engineering” (see here)
- Delivered an online workshop on the significance of “UC Berkeley Coding Competition.” (see here)

Overview

Code in Place is a free, human-centered, intro-to-coding course from Stanford University aiming to offer the highest quality free coding course to many students from around the world. Section leaders meet weekly with a small group of learners in order to solidify their understanding of the course material with hands-on coding practice and more individualized attention. This section leader has successfully led a group of diverse students through the first half of Stanford's flagship intro to Python course, CS106A. Section leaders gain interpersonal skills, practice engaging pedagogy, and demonstrate their mastery of basic Python principles.
